Civil and electrical, Lic. 92899

11+ years
South Burnett and regional Queensland

WHAT WE SELF-PERFORM

- Clearing, demolition, rock breaking and site establishment
- Bulk and detailed earthworks, cut and fill, building platforms and hardstands
- Stormwater, pits and pipes, V-drains, culverts and headwalls
- Retaining walls, structural excavation and fire wall footings
- Civil electrical: trenching, bedding, conduit and light pole bases
- Cartage, plant mobilisation, water carts and spoil disposal
- Site supervision, trade coordination and project recovery

EXPERIENCE, BY PROJECT TYPE

- Retail centre civil package, Kingaroy. About 6,000 square metres to finished floor levels, with spoil disposal, cartage, compaction and testing coordination. Approx. $600K. Complete.
- 26-site government housing program, Mossman to Mount Isa. Site scrapes, retaining, footings, screw piles, crane-in and trades to sign-off. Approx. $1.1M. Delivered on time.
- Project recovery for a building contractor. Three housing sites with defects brought back under control and completed.

OUR OWN PLANT

- CASE CX145C 14.5 t excavator, rock breaker and 360 demolition grab
- CASE CX58D 5.8 t excavator
- New Holland C327 Positrack with slasher, stick rake, trencher and auger
- Mack and Hino tippers, Mack Trident prime mover, float and dog trailers
- Water carts, generators, lighting and temporary fencing
- Extra plant hired in when the programme needs it

SITE SYSTEMS AND COMPLIANCE

- Queensland Electrical Contractor Licence 92899
- Public liability insured, certificates of currency on request
- SWMS and site safety documentation
- Soil and water management plans
- Traffic control to the Queensland MUTCD, site fencing to AS 1725
- Work near overhead and underground lines to Ergon requirements
- Compaction testing and as-constructed survey to council
- Works programme within 3 business days of award
